LIGHTING

“There’s no beauty without great lighting. Beauty is never loud. It hides in details, in shape, in moments, in light. Great lighting allows us to see what was always there and to transform it into something beautiful.”

FROM BELGIUM WITH LOVE

In Belgium, it’s not just the scent of fresh waffles and chocolate that fills the air – it’s also the love for great design. Here, creative minds meet a long design tradition, blending craftsmanship with modern aesthetics – creating light that tells stories and makes spaces shine.

In Belgien liegt nicht nur der Duft von frischen Waffeln und Schokolade in der Luft – auch die Liebe zu gutem Design. Hier treffen kreative Köpfe auf eine lange Designtradition, verbinden Handwerkskunst mit moderner Ästhetik – und schaffen Licht, das Geschichten erzählt und Räume strahlen lässt.

Jules J. Wabbes has been a classic of Wever & Ducré for many years. The gracefully curved lines testify to sophisticated aesthetics. We consider this to be tradition in the best sense and are continuing the product line with ceiling and wall lights.

At first glance, FINLIN looks like a modern sculpture. But behind its delicate design are slim aluminium tubes that create an elegant look. Whether as a ceiling, pendant, floor, or wall light – FINLIN impresses in black, gold, or elegant champagne.

Auf den ersten Blick wirkt FINLIN wie eine moderne Skulptur. Doch hinter dem filigranen Design stecken feine Aluminiumrohre, die für eine elegante Optik sorgen. Ob als Decken-, Pendel-, Steh- oder Wandleuchte – FINLIN überzeugt in Schwarz, Gold oder edlem Champagner.

LIGHT A MATCH

Has your interest been sparked yet? It's no wonder – the lights in the MATCH family are slim, like matches, and can therefore be aimed at specific objects with precision. Perfect for highlighting pictures and shelves, providing a brighter view of your favourite thriller, or skilfully staging the bar. All in a clear and uniform design.

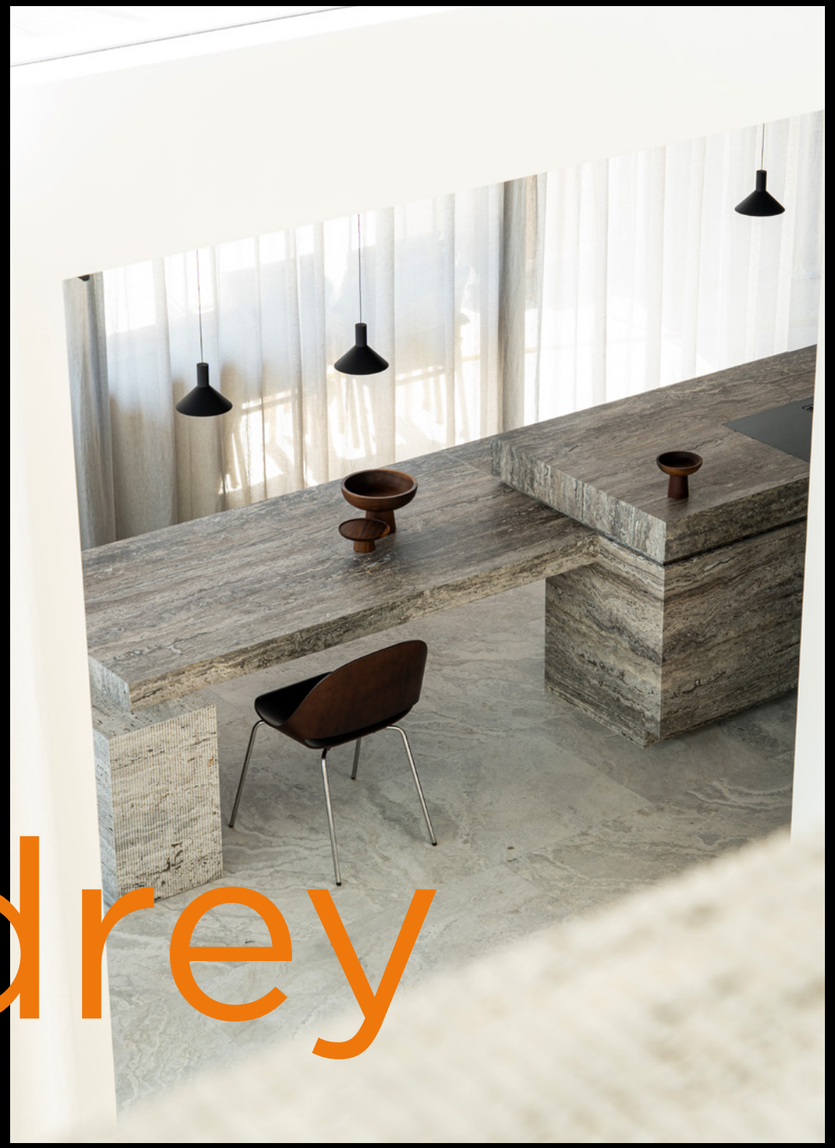

Na, schon Feuer gefangen? Kein Wunder. Denn die Leuchten der MATCH-Family sind schlank wie Streichhölzer und lassen sich so ganz gezielt auf Objekte richten. Perfekt, um Bilder und Regale zu highlighten, bessere Sicht auf den Lieblingskrimi zu haben oder die Bar gekonnt in Szene zu setzen. Und das alles in einem klaren und einheitlichen Design.

HIDDEN CHAMPIONS

Subtle recessed luminaires stay elegantly in the background while lighting any room perfectly. But low ceilings or limited space can make installation tricky. The solution: ultra-flat recessed luminaires from Wever & Ducré – compact, stylish, and ideal for renovations and small apartments.

Schlichte Einbauleuchten rücken dezent in den Hintergrund und setzen jeden Raum perfekt in Szene. Doch niedrige Decken oder wenig Platz machen den Einbau oft schwierig. Die Lösung: besonders flache Einbauleuchten von Wever & Ducré – kompakt, stilvoll und ideal für Renovierungen und kleine Apartments.

THEY'RE FUN TO BATHE WITH

IP44 luminaires are perfectly protected against splashing water, while IP65 offers protection from water jets – ideal for bathrooms, showers, or spa areas. Slim models are great for limited space and low ceilings. And both protection classes come in many designs, not just spots.

IP44-Leuchten sind optimal vor Spritzwasser geschützt, IP65 sogar vor Wasserstrahlen – perfekt für Bad, Dusche oder SPA. Für wenig Platz eignen sich flache Modelle, die auch in niedrigen Räumen glänzen. Übrigens: Beide Schutzarten gibt es nicht nur als Spots, sondern in vielen weiteren Ausführungen.

Track systems are easier than they seem: 1-phase tracks control all luminaires together, while 3-phase tracks allow separate control of spots, insets, and pendants. The 48-volt system offers maximum flexibility for different luminaires – and can be conveniently controlled via smartphone.

Schienensysteme sind einfacher als gedacht: 1-Phasen-Schienen steuern alle Leuchten gemeinsam, 3-Phasen-Schienen erlauben die separate Bedienung von Strahlern, Insets und Pendeln. Das 48-Volt-System bietet maximale Flexibilität für verschiedene Leuchten – und lässt sich bequem per Smartphone steuern.

mounting

weverducre.com/strex-configurator

Discreetly hidden in the ceiling, as a striking surface-mounted option, or floating freely in the room – with three mounting types you'll find the right solution for any space. Tip: sketch your project and note where the track should run and which zones you want to highlight for a clearer overview.

driver

weverducre.com/strex-configurator

A driver regulates the current flowing through your LED lights, preventing overheating and unwanted flickering. Which is best suited to your STREX system depends on the chosen installation. The most elegant solution is an in-track driver, but many other variants are also available.

GOOD TO KNOW
Electrical components of champagne or bronze connectors and drivers will be black.

HOW TO CONTROL MY STREX SYSTEM

The great thing about the STREX system? You have countless options. Switching or dimming your lights is easy with DALI. If you prefer not to install a hard-wired system, choose a more flexible setup – all you need is a Casambi control module and compatible DALI insets.

Das Großartige am STREX-System? Es bietet unzählige Möglichkeiten. Das Schalten oder Dimmen Ihrer Leuchten ist mit DALI ganz einfach. Wenn Sie kein fest verdrahtetes System installieren möchten, wählen Sie eine flexiblere Lösung – alles, was Sie benötigen, sind ein Casambi-Steuermodul und kompatible DALI-Module.

OH, HOW ROMANTIC

Anyone who's been to Belgium knows the charming farmhouses with wooden shutters you'd love to move into right away. Their playful historic style creates a warm, inviting atmosphere – from handmade furniture to traditional lighting, now also featured in the new CLASSIC COLLECTION.

Wer Belgien besucht hat, kennt die romantischen Landhäuser mit hölzernen Fensterläden, in die man am liebsten sofort einziehen würde. Ihr verspielter historischer Stil macht sie so warm und einladend – mit Elementen von handgefertigten Möbeln bis zu den traditionellen Leuchten der neuen CLASSIC COLLECTION.

ONE DRIVER IS ALL YOU NEED

They highlight facades, illuminate the garden, and keep paths visible at night – modern outdoor lights are true all-rounders. With the 24V Plug & Play Connector System, installation is easy: a socket, a suitable driver, and multiple luminaires can be connected in no time.

Sie setzen Fassaden in Szene, beleuchten den Garten und machen Wege im Dunkeln sichtbar – moderne Outdoor-Leuchten sind echte Alleskönner. Mit dem 24V Plug & Play Connector System gelingt die Installation besonders leicht: Steckdose, passender Treiber und schon lassen sich mehrere Leuchten anschließen.

POLA

Two, three, four, or even more, the choice is yours! The number of lights and the sum of their individual wattages is the first thing you need to know to get started with your Plug & Play Connector System.

GOOD TO KNOW
24V Plug & Play Connector System recommends adding 2 or more luminaires to the driver.

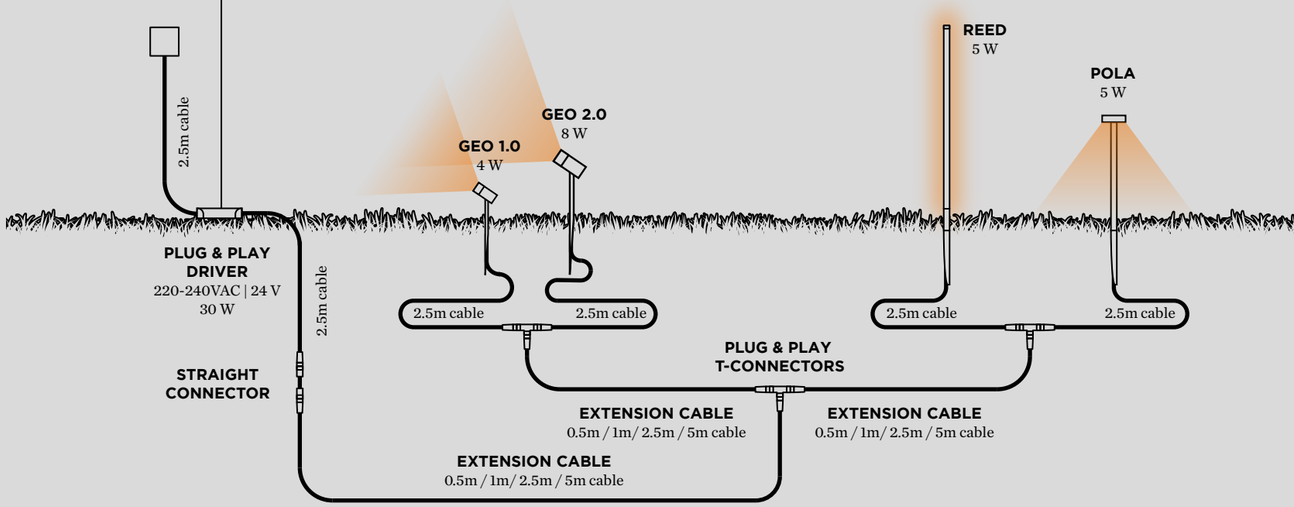

2 DEFINE THE DISTANCE BETWEEN DRIVER AND LUMINAIRE

Adjacent or far away. The distance between the driver and the first light is very important as it determines the further options of your 24V Plug & Play Connector System lighting solution. You can find detailed information about your options at weverducre.com/24V-cable-length

GOOD TO KNOW
Each driver is supplied with two 2.5m cables, one for each side.

What's that? A whole new product range, and already several project references? See it this way: Inspiration is key to success in design, so what we care for most is inspiring you and showing you the potential of what we at Wever & Ducré do. Thus, we took the liberty of editing some (original) images to give you an impression of how our luminaires improve living, office, outdoor, and other spaces. These pictures are marked with (V)
