black | orange | light blue | yellow

Mediterranean charm for wherever you need it.

Barcelona's coast is the perfect place for collecting not only seashells, but also ideas. And it's exactly where we found the inspiration for our COSTA collection too. What we've done with this inspiration, you ask? Created playful luminaires with decorative accents that resemble the colourful nets of Spanish fishermen and the fine texture of sunshades. Thanks to their smart design, the luminaires can be used either directly on the floor, as floor lamps or as hanging lamps. And since the beach isn't the only place where we appreciate some comfort, these water-resistant outdoor luminaires have been designed to accompany you everywhere. Whether your garden or your patio before you know it, COSTA will have turned any outdoor space into a bright sea of light.
