THE LITTLE BLACK LAMP - LOOKS GOOD IN GOLD TOO

Exuding 1950s charm like no other. We're not talking about style icon Audrey Hepburn, but about our eponymous luminaire. It should never miss a cocktail party. Why invite it? Because it can change its look more often than any movie star. It looks just as fantastic in matte black as it does in shimmering gold. How does that work? Choose a mounting and combine it with up to eight different shade forms. Looking for an eye-catcher for the wall? You can customise ODREY'S shape with three elegant cuff shapes.
